GENERAL COUNSEL OF THE DEPARTMENT OF DEFENSE

WASHINGTON, D.C. 20301

26 JUN 1984

Honorable David A. Stockman
 Director, Office of Management
 and Budget
 Washington, D.C. 20503

Dear Mr. Stockman:

The attached legislative proposal, DOD 98-152, "To amend the Defense Dependents' Education Act of 1978, as amended, to permit the minor dependents of United States Government personnel stationed overseas to attend the Department of Defense Dependents Schools on a space-required basis when buildings are available," is forwarded for review in accordance with Office of Management and Budget Circular A-19.

This bill would entitle all federally-connected children whose sponsors are stationed overseas to enroll as space-required students in the Department of Defense Dependents Schools (DoDDS) in most instances. The Department of Defense offers the legislation in order to ensure equality of treatment for federally-connected students in the DoDDS system and to allay fears expressed by some other federal agencies, notably the Department of State, that their dependents are at a disadvantage in seeking a DoDDS education. That Department, for example, recently amended its Standardized Regulations to eliminate the requirement that non-Department of Defense civilian personnel enroll their children in DoDDS facilities when they are available. This amendment appears at paragraph 7 of the enclosed Department of State cable.

The effect of this regulatory change will be to increase the amount of money the United States Government spends on private school tuition for its overseas dependents, with a corresponding diminution of the educational funds that are transferred to the Department of Defense from sister agencies (and thereby retained by the Government). In addition, the loss of students in DoDDS schools might reduce the quality of education offered to those who remain. The proposed legislation, while not requiring other federal agencies to withhold an educational allowance from their employees when they could send their children to DoDDS schools, would permit and direct DoDDS to treat all federally-connected children equally within the limits of the statute, thereby encouraging attendance in DoDDS facilities.

Advice is requested as to the relationship of the proposal
to the program of the Administration.

Sincerely,

G. Niederlehrer

GENERAL COUNSEL OF THE DEPARTMENT OF DEFENSE

WASHINGTON, D.C. 20301

Honorable Thomas P. O'Neill, Jr.
 Speaker of the House of Representatives
 Washington, D.C. 20515

Dear Mr. Speaker:

Enclosed is proposed legislation, "To amend the Defense Dependents' Education Act of 1978, as amended, to permit the minor dependents of United States Government personnel stationed overseas to attend the Department of Defense Dependents Schools on a space-required basis when buildings are available."

This proposal is part of the Department of Defense legislative program for the 98th Congress. The Office of Management and Budget advises that, from the standpoint of the Administration's program, there is no objection to the presentation of this proposal to the Congress. The Department of Defense recommends that the proposal be enacted by the Congress.

Purpose of the Legislation

The purpose of the proposed bill is to place all dependents of federal employees and military personnel stationed overseas on essentially the same footing when enrolling in the Department of Defense Dependents Schools (DoDDS). Under the Defense Dependents' Education Act of 1978, as amended, 20 U.S.C. §§ 921-932 (1982), only the minor dependents of members of the Armed Forces and Department of Defense civilian personnel who are paid from appropriated funds are entitled to attend schools operated by DoDDS on a space-required basis when their sponsors are serving overseas. Other federally-connected children whose sponsors are assigned overseas must, under the statute, be treated as space-available students. Thus, DoDDS currently may serve such students only if it already has the necessary staff, materials, equipment, facilities, and other resources. The only exception to this legislative limitation is the Economy Act, 31 U.S.C.A. § 1535 (West 1983), which permits the Secretary of Defense to create space on a reimbursable basis in DoDDS schools for other federal agency dependents if requested by the sponsoring agency head. Other agencies, however, appear to be reluctant to make Economy Act requests, with the result that their employees' dependents could be disadvantaged in obtaining an education from DoDDS.

This bill would entitle all federally-connected children whose sponsors are posted overseas to attend DoDDS schools as space-required students, subject to two qualifications. First, school buildings and other physical facilities, such as hospitals in the case of handicapped students, must be available to serve such children. Thus, for example, in areas where DoDDS schools do not exist the Department of Defense would not be obliged to establish them. Second, the bill would explicitly reaffirm the Secretary of Defense's authority to issue regulations prescribing the conditions and criteria under which students may enroll in DoDDS schools.

The bill would also make a small technical change. As it currently reads, the Defense Dependents' Education Act, in dealing with military personnel, treats only members of the Armed Forces as sponsors whose dependents may be enrolled in DoDDS schools on a space-required basis. Under 5 U.S.C. § 2101(2) (1982) and 10 U.S.C. § 101(4) (1982), the Army, Navy, Air Force, Marine Corps, and the Coast Guard comprise the Armed Forces. If the bill were enacted, all of the Uniformed Services (the Armed Forces plus the commissioned corps of the Public Health Service and the commissioned corps of the National Oceanic and Atmospheric Administration, 5 U.S.C. § 2101(3) (1982)) would be included.

Enactment of this bill would not require other federal agencies to compel their personnel to send their children to DoDDS schools. It would, however, permit and direct DoDDS to educate federally-connected children whenever buildings are available. Moreover, since other federal agencies would be transferring their tuition dollars to the Department of Defense rather than spending them on private schools, the United States Government would realize a significant cost savings in educating its overseas dependents.

Cost and Budget Data

The enactment of this proposal would cause no increase in budgeting requirements of the Department of Defense and should yield a more effective and efficient utilization of Government resources.

Sincerely,

Chapman B. Cox

Enclosure

A BILL

To amend the Defense Dependents' Education Act of 1978, as amended, to permit the minor dependents of United States Government personnel stationed overseas to attend the Department of Defense Dependents Schools on a space-required basis when buildings are available.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1414(2) of the Defense Dependents' Education Act of 1978 (20 U.S.C. § 932), is amended by --

(1) Adding, in section 1414(2), the phrase "subject to regulations issued by the Secretary of Defense" after the word "means";

(2) Deleting, in section 1414(2)(A), the term "Armed Forces" and substituting the term "Uniformed Services";

(3) Deleting, in section 1414(2)(B) the term "Department of Defense" and substituting the term "United States Government", deleting the period at the end of that subsection and substituting a comma, and adding at the end of that subsection the clause, "provided that, if the sponsor is not an officer or employee of the Department of Defense, the agency of the sponsor shall reimburse the Department of Defense for the cost of the education of the

dependent concerned, under regulations issued by the Secretary of Defense.".

Section 2. Section 1402 of the Defense Dependents' Education Act of 1978 (20 U.S.C. § 921), is amended by adding at the end thereof the following new subsection --

"(c) Notwithstanding any other provision of law, the Secretary of Defense shall not be required to construct new buildings or to modify existing buildings in order to provide an education or related services to dependents whose sponsors are not officers or employees of the Department of Defense or members of the Armed Forces under the jurisdiction of the Department of Defense."
